## HMO 4 Summary of Benefits

Keystone Health Plan East is a Health Maintenance Organization (HMO). This is a managed care program. Coverage is available when your care is provided or referred by a Keystone primary care physician (PCP). Your Keystone PCP may also refer you to other Keystone providers for care, if needed.

To get the most out of your benefits program, below are some key terms that you will need to understand.

- **Referral** - Documentation from your PCP authorizing care at a participating specialist for covered services.
- **Preapproval/Precertification** - Approval from Independence Blue Cross (IBC) for non-emergency or elective hospital admissions and procedures prior to the admission or procedure. Your participating provider will contact IBC for authorization. For more information on the services requiring precertification, please refer to the back page of this summary.
- **Designated site** - Most PCPs are required to choose one radiology, physical therapy, occupational therapy, laboratory, and podiatry provider where they will send all their Keystone members. You can view the sites selected by your PCP at [www.ibx.com](http://www.ibx.com).

Your Member Handbook will provide additional details about your benefits program. It will include information about exclusions and benefit limitations. It is important to note that this program may not cover all your health care services. Services may not be covered because they are not included under your benefits contract, not medically necessary, or limited by a benefit maximum (e.g., visit limit). After reviewing this information, please contact our Customer Service department if you have additional questions.

Preapproval is not a determination of eligibility or a guarantee of payment. Coverage and payment are contingent upon, among other things, the patient being eligible, i.e., actively enrolled in the health benefit plan when the preapproval is issued and when approved services occur. Coverage and payment are also subject to limitations, exclusions, and other specific terms of the health benefit plan that apply to the coverage request. Preapproval list subject to change annually.

In addition to the preapproval requirements listed above, you should contact Independence Blue Cross and provide prenotification for certain categories of treatment so you will know prior to receiving treatment whether it is a covered service. The categories of treatment (in any setting) include:

- Any surgical procedure that may be considered potentially cosmetic; and
- Any procedure, treatment, drug, or device that represents 'new or emerging technology;' and
- Services that might be considered experimental/investigative.

Your PCP or other network provider should be able to assist you in determining whether a proposed treatment falls into one of these three categories and should generally provide this prenotification to you.

#### PENALTIES:

It is the network provider's responsibility to obtain preapproval for the services listed. Members are held harmless from financial penalties if the network provider does not obtain preapproval.
