

Personal Choice

C2-F2-02 Summary of Benefits

Temple University Students

Personal Choice® our popular Preferred Provider Organization (PPO), gives you freedom of choice by allowing you to choose your own doctors and hospitals. You can maximize your coverage by accessing your care through Personal Choice's network of hospitals, doctors, and specialists, or by accessing care through preferred providers that participate in the BlueCard® PPO program. Of course, with Personal Choice, you have the freedom to select providers who do not participate in the Personal Choice network or BlueCard PPO program. However, if you receive services from out-of-network providers, you will have higher out-of-pocket costs and may have to submit your claim for reimbursement.

With Personal Choice...

- You do not need to enroll with a primary care physician
- You never need a referral

1 Non-Preferred Providers may bill you the differences between the Plan allowance, which is the amount paid by Personal Choice, and the actual charge of the provider. This amount may be significant. Claims payments for Non-Preferred Professional Providers (physicians) are based on the lesser of the Medicare Professional Allowable Payment or the actual charge of the provider. For covered services that are not recognized or reimbursed by Medicare, the payment is based on the lesser of the Independence Blue Cross (IBC) applicable proprietary fee schedule or the actual charge of the provider. For covered services not recognized or reimbursed by Medicare or IBC's fee schedule, payment is 50% of the actual charge of the provider. For services rendered by hospitals and other facility providers in the local service area, the allowance may not refer to the actual amount paid by Personal Choice to the provider. Under IBC contracts with hospitals and other facility providers, IBC pays using bulk purchasing arrangements that save money at the end of the year, but do not produce a uniform discount for each individual claim. Therefore, the amount paid by IBC at the time of any given claim may be more or it may be less than the amount used to calculate your liability. It is important to note that all percentages for out-of-network services are percentages of the Plan allowance, not the actual charge of the provider.

2 Office visit subject to copayment

3 Combined in/out-of-network

* A calendar year benefit period begins on January 1 and ends on December 31. The deductible and out-of-pocket maximum amount start at \$0 at the beginning of each calendar year on January 1.

The benefits may be changed by IBC to comply with applicable federal/state laws and regulations.

Benefits underwritten or administered by QCC Insurance Company, a subsidiary of Independence Blue Cross-independent licensees of the Blue Cross and Blue Shield Association.

Personal Choice[®] network providers will obtain precertification for you if it is required. You are not required to obtain precertification when treated in a Personal Choice network hospital or facility or by a Personal Choice network physician. Members are not responsible for financial penalties because a Personal Choice network provider does not obtain precertification.

If the provider is a BlueCard[®] PPO provider of another Blue Plan or you use an out-of-network provider, you must obtain precertification if required. You may be subject to a 20% reduction in benefits if precertification is not obtained.

In addition to the precertification requirements listed above, you should contact Independence Blue Cross and provide prenotification for certain categories of treatment so you will know prior to receiving treatment whether it is a covered service. This applies to network providers and members who elect to receive treatment provided by BlueCard providers, or out-of-network providers. The categories of treatment (in any setting) include

- Any surgical procedure that may be considered potentially cosmetic; and
- Any procedure, treatment, drug, or device that represents new or emerging technology; and
- Services that might be considered experimental/investigative.

Your provider should be able to assist you in determining whether a proposed treatment falls into one of these three categories. You are encouraged to have your provider place the call for you.

Precertification is not a determination of eligibility or a guarantee of payment. Coverage and payment are contingent upon, among other things, the patient being eligible, i.e., actively enrolled in the health benefits plan when the precertification is issued and when approved services occur. Coverage and payment are also subject to limitations, exclusions, and other specific terms of the health benefits plan that apply to the coverage request.
