SMART[®] REGISTRY

Dear Valued Provider:

We are pleased to present the **SMART[®] Registry from the Independence Blue Cross ConnectionsSM Health Management Program**. The SMART Registry is designed to support your relationship with patients and enhance your ability to provide evidence-based care for chronic illness. The SMART Registry offers you practical, relevant information about your patients in an easy-to-use format to help you stay well informed about your patients.

The SMART Registry provides you with the information you need to:

- maintain a comprehensive view of your patients' care;
- identify opportunities for better patient care;
- refer patients to Connections Health Management Program for additional support and education.

Everything you need is right here. Please take a minute to read the report description section within this packet. Then you're ready to move on to your current reports.

If you have any questions about using the SMART Registry, please call the Connections Program Provider Support Line at 1-866-866-4694. We look forward to addressing any questions you may have to ensure that you get the most out of this valuable resource.

Sincerely,

A handwritten signature in black ink that reads "Esther J. Nash, MD".

Esther J. Nash, M.D.
Senior Medical Director
Population Health and Wellness

IMPORTANT INFORMATION ABOUT THE SMART REGISTRY:

- **Information in the Registry is compiled from claims data.** Claims may not show services for the most recent three months and are not as accurate as the information in your patient records. The Registry highlights patients for whom claims data do not show the presence of a recommended test or treatment; this may not mean the test or treatment has not been done, but it indicates that we have no record of the test or treatment being performed.
- **Information in the Registry is intended as a *practice support tool* to support evidence-based care,** not as a "report card." It does not, nor is it intended to, replace your professional clinical judgment as the patient's treating physician. It is not used to determine provider reimbursement and is not connected with the QIPS or PQAS programs. However, using this tool may promote care opportunities in your practice that, when addressed, may positively affect your PQAS score and associated quality incentive payments to eligible PCPs in the HMO network.

Please note: All Registry measures are based on 2008 Connections Clinical Guidelines, which can be viewed at http://www.ibx.com/providers/policies_guidelines/clinical_guidelines/index.html.

PATIENT-SPECIFIC REPORTS

Patient-specific reports give you a whole-person view of your patients with chronic conditions. The reports are designed to be removed from the SMART[®] Registry and filed in individual patient records. If you wish to update or correct any information in these reports, or would like to have a Health Coach contact a patient, simply write in the appropriate information and fax it to the number provided on the report.
