

# We give you something to smile about

**Good dental health is an important part of managing your overall health. Dental exams may detect diabetes, heart disease, and other serious medical conditions.**

With Independence Blue Cross (IBX) Dental PPO and EPO plans, you not only get comprehensive dental benefits, you also get convenience and peace of mind for all your health care needs — from the company you know and trust.

## Dental benefits focused on prevention and savings<sup>1</sup>

Designed to deliver a whole-person health experience, our affordable dental plans encourage prevention, early diagnosis, and treatment. Plans feature low monthly premiums and coverage of routine exams, cleanings, and X-rays. Plus, market-leading in-network discounts and unique value-adds can help you and your family save on out-of-pocket expenses.

## Large local and national network

You have access to one of the largest and continually expanding dental networks in the region, with over 500,000 points of access nationally. You can use the *Find a dentist* tool at [dominiondentists.com/ibx](https://www.dominiondentists.com/ibx) to locate a variety of in-network providers.

<sup>1</sup> Refer to your IBX Dental plan benefit booklet for benefit eligibility and details. Value-added services may change.

<sup>2</sup> Once you log in to your member account at [ibx.com](https://ibx.com), click on the Dental tab to access your IBX Dental account. You will have to either create an account or login to your account to access your IBX Dental plan benefits.

<sup>3</sup> All provider offices may not offer teledentistry. Check with your provider.

Independence Blue Cross offers products through its subsidiaries Independence Assurance Company, Independence Hospital Indemnity Plan, Keystone Health Plan East, and QCC Insurance Company — independent licensees of the Blue Cross and Blue Shield Association.

Independence Dental benefits are administered by Dominion Dental Services, Inc., an independent company.

Log in at **[ibx.com](https://ibx.com)** to begin using your dental benefits.<sup>2</sup>

## Additional value-added services<sup>1</sup>

Better oral health leads to better overall health. Your dental plan may feature value-added services to meet your unique health care needs.

### Preventive Rewards program

The primary dental plan subscriber will receive a \$20 payment for each covered family member that gets two cleanings during the calendar year from an in-network dentist. For example, for a family of four, the primary subscriber would receive \$80 if each family member gets two cleanings from an in-network dentist within the plan year.

### Teledentistry<sup>3</sup>

If your dentist offers teledentistry services, you can use a credentialed dentist virtually from wherever you are for services, like virtual exams, second opinions, and expert dental advice, when you need it most.

### Savings incentive for preventive services

Preventive services do not count against your plan's annual maximum and are covered at 100 percent on most plans, which allows you to use your benefits for other needed, more costly services.
