

COVID-19 Testing Locations – as of April 1, 2020

If you think you've been exposed to COVID-19 and/or you develop a fever, cough, or have trouble breathing, contact your doctor or state health department. They will screen you based on CDC guidelines. If they issue a lab order for the test, Independence will cover the cost for testing.

The testing site information listed below was provided by the hospital/health system and does not represent all testing locations that are available in the area. We will continue to update the list as information is made available to us. Please note the following:

- Testing at all sites is subject to availability of equipment and test supplies;
- Hours of operation are subject to change without notice;
- Most sites will not provide a test without being prescreened and without presenting a physician order.

PA / DE Locations

Hospital/Health System	Location(s)	Hours of Operation	Type of Location	Requirements for Testing
Christiana Care Health System				
ChristianaCare Christiana Hospital	4755 Ogleton Stanton Road, Newark, DE 19711	ER 24/7	Current facility location
