

Save money on preventive medications

You can get preventive medications for chronic conditions for less with your HSA-qualified high deductible health plan (HDHP).

When you fill a prescription for one of the preventive medications listed on the following pages, your deductible will be waived. That means you only pay your copay or coinsurance each time you fill one of these prescriptions, even if your deductible has not been met.

Keep chronic conditions under control with preventive medications

Taking preventive medications helps you manage your long-term conditions, prevent complications, and avoid costly trips to the Emergency Room or hospital.
