

# Lab solutions that make it easy

LabCorp offers Independence Blue Cross members a convenient and seamless experience when you need lab services — whether you're scheduling an appointment, checking in, or reviewing test results.

LabCorp offers these convenient new digital tools:

### LabCorp PreCheck™

An easy, mobile-friendly way to make appointments, enter your insurance information, and request appointment reminders by email or text

### LabCorp Express™

Efficient electronic check-in when you arrive

### LabCorp Patient™ mobile app

Gets you information when and where you need it, including when test results are ready, official reports, billing information, and access to research opportunities

### Get started today!

Download the free LabCorp Patient™ mobile app

### Did you know?

LabCorp also offers a range of added services available to you:

- Retinal imaging at Patient Service Centers, partnering with Wills Eye Hospital to bring awareness to the risk of diabetic retinopathy
- Pixel by LabCorp, confidential at-home self-collection for certain tests
- Collaboration with 23andMe, with expanded capacity and enhanced automation
- Integration with Apple®'s Health Records on iPhone®, which allows you to store and view test results on your phone

Members with a Keystone Health Plan East health plan must use the lab designated by their primary care physician (PCP). They can find this information by checking the Lab Indicator on the front of their member ID card, calling their PCP's office directly, or by using the Find a Doctor tool at [ibx.com](https://ibx.com). When members are referred for lab services by a physician other than their PCP, they should be sure to use their PCP's designated lab. Members should call the Customer Service number on the back of their member ID card if they have any questions.
